☎ 765-694-9001 ✉ [sing1041@purdue.edu](mailto:sing1041@purdue.edu) in [linkedin.com/in/japneet-singh6](https://www.linkedin.com/in/japneet-singh6) 📄 [japneet644](#) 🎓 [Japneet Singh](#)

## Education

### Purdue University

Aug 2022 - May 2026 (Expected)

Ph.D. in Electrical and Computer Engineering, West Lafayette, IN, USA

GPA: 4.0 / 4.0

### Indian Institute of Technology Kanpur

Jul 2017 - May 2022

B.Tech-M.Tech (Dual Degree) in Electrical Engineering, Kanpur, India

B.Tech GPA: 9.6/10.0, M.Tech GPA: 10.0/10.0

## Professional Experience

### Amazon | Applied Scientist Intern

May 2025 - Present

- Designing a lightweight video-language model that extracts temporal features from compressed video streams.
- Proposed a method to enrich spatial features from a vision transformer without modifying the core model structure.
- Demonstrated improvements in embedding quality on small-scale classification tasks based on the video data.
- Currently integrating the framework into a larger end-to-end pipeline for scalable and efficient video inference.

### Purdue University | Graduate Research Assistant

Aug 2022 - present

- Developed a testing framework to evaluate the goodness of fit of comparison data to a Bradley-Terry-Luce(BTL) model.
- Established the minimax optimality of the test and conducted evaluations on real-world datasets using Python.
- Extended the testing framework to generalized Thurstone models based on maximum likelihood based techniques.
- Evaluated how accurately real-world datasets, such as NFL matches, LMSYS LLM leaderboard, and preference datasets for LLM and RL reward models, etc, conform to an underlying BTL or a Thurstone model based on the hypothesis test.
- Working on extending the framework to contextual BTL models used for modeling preferences in fine-tuning of LLMs.

### Indian Institute of Technology Kanpur | Researcher (Master's Thesis)

Jan 2021 - Apr 2022

- Researched on weighted matrix completion and analyzed the impact of subspace information on the reconstruction error.
- Designed a weighted nuclear-norm minimization algorithm, provided its convergence analysis and Python simulations.
- Quantified performance gains in multi-user wireless networks, demonstrating a 20% increase in per-user data rate.

### University of California Santa Cruz | Research Intern

May 2021 - Jul 2021

- Introduced two new architectures that achieve a 1000x reduction in storage costs and a 200x decrease in communication costs associated with blockchain's historical data and simultaneously provide the confidentiality of the stored data.
- Developed a construction of the secret sharing scheme satisfying the requirements of the protocol.

### Indian Institute of Technology Kanpur | SURGE Research Fellow

May 2019 - Jul 2019

- Trained conditional generative models in *TensorFlow* to combat slowing down of MCMC algorithms near criticality.
- Used trained generative adversarial network (GAN) models for unsupervised phase transition detection.
- Proposed a hybrid conditional GAN & MCMC algorithm adapting to distribution errors and improving accuracy by 10%.

## Technical Skills

**Languages:** Python, C, C++, SQL, Bash, L<sup>A</sup>T<sub>E</sub>X, MATLAB

**Software's/Libraries:** Git, Docker, Weights & Biases, DeepSpeed, TensorFlow, PyTorch

## Selected Publications

- *Minimax Hypothesis Testing for the Bradley-Terry-Luce Model*. Under review. [\[Link\]](#)
- *Hypothesis Testing for the Generalized Thurstone model*. Proceedings of ICML 2025. [\[Link\]](#)
- *Bounds on Maximal Leakage over Bayesian Networks*. Proceedings of ISIT 2025. [\[Link\]](#)
- *Doebelin Coefficients and Related Measures*. IEEE Transactions on Information Theory, Feb 2024. [\[Link\]](#)
- *Testing for the Bradley-Terry-Luce model*. Proceedings of IEEE ISIT 2023. [\[Link\]](#)
- *Conditional Generative Models for Sampling and Phase Transition Indication in Spin Systems*. SciPost Phy. 2021 [\[Link\]](#)

## Awards

- **2022:** Recipient of the **Dr. Vijay K. Varma Talent Award**, graduation award at IIT-Kanpur.
- **2021:** **Qualcomm Innovation Fellowship 2022**, India.
- **2017-21:** **Academic Excellence Award**, for 4 consecutive years at IIT-Kanpur,
- **2016:** **KVPY scholarship Awardee**, India.
